## Get playing 'Easy Cricket' at work and register to become a Cricket Activator!

The ECB has launched a new form of cricket to encourage more adults to play the game.... Which can be played anywhere at anytime!

So, if you or your colleagues have never played or not played cricket for a while this is the perfect opportunity to give it a go and get playing!

It's fun, easy to understand and simple to set up for any number of people, plus if somebody in your organisation signs up to be a '**Cricket Activator**' you could receive a FREE set of Easy Cricket kit for your workplace!

Once you're registered as a Cricket Activator, all you'll need to do is submit a monthly record to the ECB detailing the number of sessions you have delivered and the number of people that have attended those sessions. That is all!
